TWO BROTHERS

GOV

WARNING

THIS PLAY HAS BEEN KNOWN TO OFFEND POLITICIANS

On Christmas Day an Indonesian fishing boat packed with refugees sinks in the Indian Ocean. Two hundred and fifty people drown, and one man survives. What happens when this tragedy spurs two powerful but politically opposed brothers to take sides against each other?

This explosive political thriller never lets up as it brings together terrifying political secrets, family feuds and a wicked sense of humour to explore one of the most divisive struggles facing this country today, "the struggle for a fair go".

Two Brothers may be the most controversial political play of the past 25 years. It divided critics and enraged politicians who were openly offended by the audacity of an Australian voice prepared to question whether immigration policy is determined by justice, prejudice or personal ambitions?

Who's right? Who's wrong? You be the judge!

'A confronting piece of theatre - guaranteed to get strong audience reaction - of whatever description.'
